HAVO: Sleutelbosch Gemert (2002-2007) & Erasmus College Eindhoven (2007-2008).

## Working experience

- Part-time freelance interaction design and development. (2012 - today)

- Bar assistant Cultural Centre: De Effenaar, Eindhoven (September 2011 - January 2013).

- Internship at Tribal Internet Solutions, 's-Hertogenbosch. Created a time tracking platform using emotional design: tracking time no longer is a vexatious task.

- Summer job as courier at P. Heil Automaterialen, Beek en Donk (July 2011 - August 2011).

- Internship at Back to Back, Gemert. Working on mostly graphic design and interaction design (September 2010 - February 2011).

## Short description and skills

I am a designer, developer and human-technology interaction specialist. I have a broad expertise in both designing and developing mobile and web applications. In addition, I have experience in participatory design and emotional design. I have a special place in my heart for intuitive applications that 'just work'. To accomplish this I apply my background in psychology and my passion for design to achieve the optimal combination of usability, engagement and aesthetics.

I am adept in graphic and interaction designing (Sketch, Photoshop, Illustrator, InDesign), front-end development (responsive HTML5, CSS3, Javascript: React, React-Native, Angular 1.5, jQuery, PHP), and able in back-end development (NodeJS's ExpressJS and NoSQL MongoDB).

## Leisure

Playing guitar, bass guitar and some drums.
